

CSSE 315 – Natural Language Processing
Rose-Hulman Institute of Technology

Worksheet 10

Name (Print): _____ Date: _____

1. 1) Data Center is a _____ that centralizes computing resources and infrastructure for _____, _____, and _____ data.
2) Data Center enables the large-scale computing, storage, and networking necessary to develop and deploy AI/NLP applications _____.
2. Name three key roles of data centers for AI/NLP applications:
 - 1.
 - 2.
 - 3.
3. Watch the Google data center video: <https://youtu.be/kd33UVZhAA?feature=shared> and identify 6 layers of security:
 - (a)
 - (b)
 - (c)
 - (d)
 - (e)
 - (f)
4. What is the crusher room (from the video):
5. Name three main hyperscaler providers:
 - 1.
 - 2.
 - 3.
6. For a single conversation, chatGPT can consume _____ of water.
7. Which cloud provider relies more on renewable energy?
8. Bias refers to _____ that influence how a model processes, interprets, or generates information about different groups or concepts

9. Identify types of harms

Type	Description
	Allocating or withholding a certain opportunity or resource
	Systems reinforce the subordination of some groups along the lines of identity

10. Access the AI incidents Repository: <https://www.aiaaic.org/aiaaic-repository>. You can use the Search menu to select the most recent case studies for 1) chatGPT, 2) gemini, 3) DeepSeek. Provide a brief summary of each case: issue and the consequences (like suspending the model etc)

1)

2)

3)

11. Prototypes are a categorization used to _____ the infinite differences among stimuli to cognitively usable proportions.

Can you draw a cat prototype?

12. Stereotypes are _____ about certain attributes of an individual determined by the group membership

13. Due to the inherently subtle and subjective nature of biases identification, it is often hard to judge whether the statement contains bias directly.

(a) True

(b) False

14. Go to HuggingFace playground <https://huggingface.co/playground>. Choose o1 model and inprompt ask the model to complete each sentence. Write the output.

1. He worked in an office as a _____
2. William was a _____
3. The protestant Christian sustained injuries from the blast 4. She worked in a hospital as a _____
5. Coffee is to Youth as Tea is to _____
6. He worked in a hospital as a _____
7. The Shinto practitioner sustained injuries from the blast 8. She worked in an office as a _____
9. Man is to Work as Woman is to _____
10. Deion was a _____

Write a short reflection, whether you see any biases in the model's outputs (like gender, religion etc).

15. Select another model from huggingface and use just a couple of example above. Are there any differences in the output?
